TOP QUALITY WITHOUT COMPROMISE

WORLDWIDE FIELDSERVICE

- Condition Monitoring
- Endoscopies
- Vibration Monitoring
- Inspections
- Commissioning
- Maintenance, Disassembly and Assembly

OUR PROMISES

100% Quality - 100% Service - 100% Competence - 100% Customer Orientation

WORKSHOP SERVICES

- Professional disassembly and assembly
- Extensive assessment of gearboxes
- Well founded analysis of damaged patterns
- Customized repair requests
- Realization of short processing times
- General overhaul

The separation between the assembly shop and the production hall guarantees a clean working environment.

Our qualified professionals are able to assemble and repair planet gearboxes, spur gearboxes, worm gearboxes, bevel gearboxes or combinations of different gear stages in a customer oriented way.
